PROFESSIONAL THERAPY CHAIR

WITH PRECISION WEIGHT MEASUREMENT SYSTEM

Weight measurement system

It provides continuous monitoring of patient weight and weight change during treatments. It has been tested and certified by Notified Body

Certificate No. TH-8562/2/2009

which is required for Authenticated Officials to legally verify accuracy of the scale.

Intelligent control system with microprocessor

Our medical approved electronic control unit provides an opportunity to achieve several comfort and safety features.

Electronic adjustments

Multiple independent adjustment possibilities by 4+1 motors offer maximum patient comfort, plus a reduction in work for staff.

- backrest
- seat tilt
- legrest
- seat height
- footrest (optional)

SSP motor control

It uses regulated motor controls for soft position changes in order to provide maximum safety and comfort. Reduced load on moving parts increases their working life.

Battery back-up

Full operation from battery in case of power failure.

Entry position

Electronic height adjustment and Tilt-up armrest allowing the patient to easily enter or leave the chair

Trendelenburg position

The backrest adjusting range ensures that the patient's head is lower than the circulatory centre point of the body in compliance with EN 60601 Medical Standard

* Chairs in the photo involve some optional elements

Easy-to-use microprocessor controlled handset

Automatic buttons

- One button operation for "Entry", perfectly horizontal "Bed" and Trendelenburg position

- The head-down position can be reached easily from any previous one by using the red buttons (on handset and control box). Optional hands-free Trendelenburg function can be activated by the

- red foot-switches.
- Especially designed for medical applications
- Long-life micro-switches are located under an exchangeable keypad foil
- IP 67 Waterproof housing

SPECIAL FEATURES AND OPTIONAL ACCESSORIES

- 1 3-Dimensional upholstery with divided back part
- 2 Paper roll holder (Paper width: 50 cm)
- 3 Stainless steel armrest protecting frame
- 4 Plastic side cover with handle
- 5 Central operating brake for quick fixing of 4 castors
- 6 Infusion bottle holder (IV pole)
- 7 Headrest pillow with built-in stereo speakers
- 8 Adjustable monitor arm for mini TV or DVD player
- 9 Trendelenburg foot-switches on both sides of underframe plastic cover
- 10 Reading lamp with flexible arm
- 11 Rechargeable battery back-up
- 12 Additional Trendelenburg button on control box
- 13 Emergency Stop button

Tilt-up armrest

The solid upholstered armrest makes it possible to achieve the most suitable and restful arm position for any physique and treatment.

It can be adjusted in height and entry is facilitated by simply tilting it up. The distance between armrests can be adjusted also by swivelling completely. (48 or 60 cm) The multilayered soft armrest

cushion ensures improved patient comfort.

Exchangeable upholstery

Can be removed easily with a few movements for cleaning or maintenance.

Trendelenburg position

Safety Trendelenburg button on control box and additional foot-switches ensure more safety to achieve TRB position even in case of handset or cable failure.
